

Preferred Area K: Queen Mary Reservoir,
Ashford

(Spelthorne 507240E 169760N)

The boundary shown on the map is indicative of the area of any future mineral development and will be refined at the planning application stage. The key development requirements described below will need to be addressed as part of any future proposal for mineral extraction. Other requirements may be identified at the time of a planning application. All relevant criteria in the core strategy policies should, nevertheless, be considered when preparing planning applications to assess appropriate mitigation of any impacts, and the EIA process used, where relevant.

Preferred area K : Queen Mary Reservoir, Ashford

Location	The reservoir lies south of Staines Road (A308) and Ashford with Shepperton Studios and Littleton village to the south
Area:	284ha
Estimated yield:	1.25 million tonnes of concreting aggregate
