

Surrey Public Health Team Service Plan 2024/25

This plan sets out the overarching purpose of the Surrey Public Health team, longer term ambitions and more detailed objectives across the team. The Surrey Public Health team sits within the Public Service Reform Directorate of Surrey County Council.

The plan is primarily intended for the wide range of partners that the team works with in Surrey, to further support the collaborative working that underpins much of what the team delivers. Additional information is also provided on performance measures, key commissioning intentions, aspirations on social value and communications plans.

Contents	Page
1. Purpose	
2. Ambitions and delivery	
3. Surrey Health and Wellbeing Strategy (strategic leadership and delivery)	
4. Place based liaison and working	
5.	

3 Good performance across public health and integrated commissioned services that enable improvement in health-related outcomes alongside approaches that are delivered through other partners.

Effective performance of commissioned services with resources available allocated on a prioritised basis

5 Local decisions on healthcare provision are and what is effective.

Delivery of Surrey Priorities Committee (SPC) Workplan
Delivery of agreed clinical pathway reviews app
Align healthcare commissioning policies with the development of the Priorities Committee /Independent Funding Requests regional work programme

Commissioning policies reviewed against the evidence base and recommendations for policy changes made to

3.

Adults, children and young people at risk of and with depression, anxiety and other mental health issues access the right early help and resources

The emotional wellbeing of parents and caregivers, babies and children is supported

Priority 3: Supporting people to reach their potential by addressing the wider determinants of health

Outcome

8. Public Health / Healthy Surrey Communications plan (To follow end of April 2024)

Targeted Approach to a Healthy Eating:

Launch of the Food Strategy and oversee its implementation through the Surrey Food Partnership Group to tackle healthy eating, food insecurity and reduce the climate impacts of the local food system

Continue to roll out Eat Well Start Well, catering award scheme, targeting areas with highest child obesity (NCMP

Evaluation of Eat Out Eat Well Healthy (EOEW) Catering Award Scheme pilot
